

BIOT-T502 Biotechnology Laboratory
Tues/Thurs 4 - 6:15 PM, Room: Jordan Hall A302

Instructor: R. Taylor Raborn, PhD

Office: Simon Hall 205B

Email: rtraborn@indiana.edu

Office Hours: By appointment.*

Textbook: None required. Electronic copies of selected readings will be posted on Canvas as necessary.

Course Objectives:

Fill in information here

Grading: Quizzes 20%; Report: 70%; Class Attendance and Participation: 10%

Attendance Policy: This course will be largely lab-based and interactive, and wherever possible I will encourage active participation so that it is clear the class is engaging with the material. Because of this, attendance and positive participation in the lab and seminars will count toward a small part (10%) of a student's final grade for this module.

*Please arrange a time with me in person or via email, because I may be in the lab or in a seminar, and may not be in my office if you stop by unannounced.
